

Charles H. Hood Foundation

Alumni Directory

**Child Health Research Award Recipients
and Hood Postdoctoral Research Fellows**

1942 – 2018

The history of the Charles H. Hood Foundation reveals a century-long tradition of commitment to community and child health. Countless researchers funded by the Child Health Research Awards Program have made seminal contributions that have benefited large numbers of children. Many of these scientists have also achieved brilliant careers as leaders in their fields.

In its early years, the Program focused on infectious diseases, prevention, and training for health professionals. From the mid-1940s until 1971, the Foundation supported a diversity of programs seeking to improve child health including medical research, demonstration projects, public health programs, scholarships and fellowships.

As the Foundation reorganized in 1971, it increased its budget and explicitly emphasized basic science and medical research as its priorities. Over the years, expertise has been added to its Scientific Review Committee to reflect growth of research in genetics, oncology, epidemiology, and other disciplines. The Child Health Program also shifted to an exclusive focus on young investigators.

Today, the Child Health Research Awards Program makes two-year grants which support hypothesis-driven clinical, basic science, public health, health services research, and epidemiology projects relevant to pediatrics. In addition, the Hood Foundation supports two basic science and/or clinical postdoctoral fellows in Massachusetts. The Foundation's trustees have also made large grants in health policy and translational research to established New England investigators. To-date, the Foundation has distributed over \$63 million to New England research institutions.

The following pages list all Child Health Award Recipients in alphabetical order with the date of their award, title of the original research project and current contact information. The last four pages (49 – 52) denote the 49 Hood Fellows, funded between 1989 and 2017. The Hood Foundation is immensely proud of its Award Recipients and values updates on their current endeavors.

Child Health Research Award Recipients

Usha Acharya, Ph.D.

(2005 Award Recipient)

Pathogenics and Suppression of Leber

Congenital Amaurosis and Retinitis

Pigmentosa 12 Related Retinal

Degeneration

University of Massachusetts Medical School

usha.acharya@umassmed.edu

David W.K. Acheson, M.D.

(1995 Award Recipient)

Shiga-Like Toxin Transport Across

Gastrointestinal Epithelial Cells

Leavitt Partners, LLC

david@leavittpartners.com

Kate G. Ackerman, M.D.

(2007 Award Recipient)

Mechanism of Barx1 Mediated Congenital

Diaphragmatic Hernia

University of Rochester Medical Center

kate_ackerman@urmc.rochester.edu

Suneet Agarwal, M.D., Ph.D.

(2013 Award Recipient)

Manipulating Heteroplasmy in

Mitochondrial Genetic Diseases

Boston Children's Hospital

suneet.agarwal@childrens.harvard.edu

Caroline Alexander, Ph.D.

(1999 Award Recipient)

Analysis of Oncogenic Properties of

Syndecan-1

University of Wisconsin-Madison, School of

Medicine and Public Health

alexander@oncology.wisc.edu

Donald M. Allen, M.D.

(1966 Award Recipient)

Support of Research to Investigate the

Possible Interrelationship of Iron and Folic

Acid in Anemic Mice and the Clinical

Application of this Data to the Problem of

Iron Overloading for Children with Anemia

Floating Hospital for Children, Tufts Medical Ctr.

Arnold J. Altman, M.D.

(1974 Award Recipient)

Relationship of Monocyte-derived Colony

Stimulating Factor (CSF) to the

Granulocytosis of Juvenile Chronic

Granulocytic Leukemia (CGL)

University of Connecticut Health Center

aaltman@ccmckids.org

Donna Ambrosino, M.D.

(1983 Award Recipient)

Therapeutic Use of Human Hyperimmune

Globulin in Haemophilus Influenzae Type B

Meningitis in Infant Rats

donna.ambrosino1@gmail.com

Chris T. Amemiya, Ph.D.

(1996 Award Recipient)

Cloning of the Gene Defect for X-Linked

Lymphoproliferative Disease

Benaroya Research Institute

camemiya@benaroyaresearch.org

Jean A. Amos, Ph.D.

(1986 Award Recipient)

Genetic Predisposition to Down Syndrome

Specialty Labs

jamos@specialtylabs.com

William Stanley Anderson, Ph.D., M.D.

(2010 Award Recipient)

The Impact of Interictal Spike Events on

Visual Object Recognition

Johns Hopkins University School of

Medicine

wanderso68@gmail.com

Warren A. Andiman, M.D.

(1982 and 1983 Award Recipient)

Rapid Diagnosis of Cytomegalovirus

Infection Using Nucleic Acid Spot

Hybridization

Yale School of Medicine

warren.andiman@yale.edu

Priscilla M. Andrews

(1966 Award Recipient)
Support of a Demonstration and Training Program toward Developing Improved Patterns of Nurse Staffing in a Pediatric Hospital, Improving the Quality of Child Care, and Identifying the Role of a Pediatric Nurse Clinical Specialist
Boston College

Nancy C. Andrews, M.D., Ph.D.

(1993 Award Recipient)
Intestinal Iron Transport
Duke University School of Medicine
Nancy.Andrews@duke.edu

Gabor J. Anthony, M.D.

(1968 Award Recipient)
Measuring Maternal Hormones on the Growth and Development of Body Organs and their Relationship to the Growth and Development of the Fetus
University of Vermont College of Medicine

Michael Apkon, M.D., M.B.A., Ph.D.

(1997 Award Recipient)
Mechanism of Cerebral Vasoregulation by Extracellular pH
Yale School of Medicine
michael.apkon@yale.edu

June R. Aprille, Ph.D.

(1973 Award Recipient)
Lipid Diet and Development of Energy Metabolism as Applied to the Practical Energy Needs of the Newborn
(1977 Award Recipient)
Pathogenesis of Reyes Syndrome
(1988 Award Recipient)
Northeast Center for Analysis of Mitochondrial Diseases in Infants and Children

June R. Aprille, cont.

(1990 Award Recipient)
Northeast Center for Analysis of Mitochondrial Diseases in Infants and Children
Washington and Lee University
japrille@wlu.edu

Robert J. Arceci, M.D., Ph.D.

(1986 Award Recipient)
Detection of Multidrug Resistance Gene Expression in Pediatric Malignancies
Johns Hopkins University
arcecro@jhmi.edu

Scott A. Armstrong, M.D., Ph.D.

(2003 Award Recipient)
Cooperation of MLL and FLT3 in Infant Leukemia
Memorial Sloan-Kettering Cancer Center
armstros@mskcc.org

Sudha Arunachalam, Ph.D.

(2015 Award Recipient)
Improving Child-Caregiver Interactions for Young Children with Autism
Boston University
sarunach@bu.edu

Cameron Ashbaugh, M.D.

(1995 Award Recipient)
Virulence Genes in Group A Streptococcus
Brigham and Women's Hospital
cdashbaugh@partners.org

Timothy W. Baba, M.D., Ph.D.

(1995 Award Recipient)
Prevention of Perinatal HIV-1 Transmission by Combination Drug Therapy
Tufts Medical Center
tbaba@tuftsmedicalcenter.org

Kamran Badizadegan, M.D.
(2001 Award Recipient)
Role of Structural-Functional Heterogeneity in Membrane Microdomains in Pathogenesis of Secretary Diarrhea
Boston Children's Hospital
kamran.badizadegan@childrens.harvard.edu

Susan Baker, M.D., Ph.D.
(1984 and 1985 Award Recipient)
Studies on the Role of Short-Term Starvation on Intestinal Microvillus Barrier Function in Immature Animals
Children's Hospital of Buffalo
sbaker@upa.chob.edu

Alejandro Benjamin Balazs, Ph.D.
(2015 Award Recipient)
Evolutionary Dynamics of Pediatric HIV Infection Undergoing Antibody-Mediated Selective Pressure
Ragon Institute of MGH, MIT and Harvard
abalazs@mg.harvard.edu

Mark Ballow, M.D.
(1975 Award Recipient)
Study of the Effects of Transfer Factor on the Histocompatibility System
University of Connecticut Health Center
mballow@upa.chob.edu

Robert S. Baltimore, M.D.
(1977 and 1978 Award Recipient)
Opsonic Immunity to Group B Streptococcus
Yale School of Medicine
robert.baltimore@yale.edu

Zheng-Zheng Bao, Ph.D.
(2002 Award Recipient)
Regulation of Irx4 Gene Expression in Heart Development
University of Massachusetts Medical School

Daniel E Bauer, M.D., Ph.D.
(2015 Award Recipient)
Genome Editing of BCL11A for Beta-Thalassemia
Boston Children's Hospital
bauer@bloodgroup.tch.harvard.edu

Mercedes Becerra, Sc.D.
(2004 Award Recipient)
Impact of Isoniazid Prophylaxis to Prevent TB in Children
Harvard Medical School
mbecerra@post.harvard.edu

Eugene Becker, M.D.
(1948 Award Recipient)
Research in Nutritional Significance of Benzoic Acid
Geisel Medical School at Dartmouth

Alan H. Beggs, Ph.D.
(1994 Award Recipient)
Autologous Myoblast Transfer for Somatic Cell Gene Therapy of Globoid Cell Leukodystrophy
Boston Children's Hospital
beggs@enders.tch.harvard.edu

David R Beier, M.D., Ph.D.
(1992 Award Recipient)
Identification of tumor suppressor genes using a transgenic mouse model
Brigham and Women's Hospital
beier@receptor.med.harvard.edu

Barbara Bembrey
(1954 Award Recipient)
Diabetes Control
United Way of Massachusetts Bay
b.bembrey@supportunitedway.org

Charles B. Berde, M.D., Ph.D.
(1986 Award Recipient)
The Efficacy of Methdone for the Relief of Postoperative Pain in 3 to 7-year-old Children
Boston Children's Hospital
charles.berde@childrens.harvard.edu

Jeffrey M. Bergelson, M.D.

(1994 Award Recipient)

Structural Basis of Echovirus-Receptor Interactions

Children's Hospital of Philadelphia

bergelson@email.chop.edu

Shelly C. Bernstein, M.D., Ph.D.

(1987 Award Recipient)

Identification of Genes Conferring

Metastatic Capability in Childhood Cancer

Dana-Farber Cancer Institute

shelly_bernstein@dfci.harvard.edu

Charles I. Berul, M.D.

(1997 Award Recipient)

Electrophysiologic Properties of Transgenic

Familial Hypertrophic Cardiomyopathy Mice

Children's National Medical Center

cberul@childrensnational.org

Laura M. Bevilacqua, M.D.

(1999 Award Recipient)

Optical Mapping for the Characterization of

Cellular Mechanisms of Inherited

Ventricular Arrhythmias

Boston Children's Hospital

laura.bevilacqua@cardio.chboston.org

Irina Bezsonova, M.Sc., Ph.D.

(2012 Award Recipient)

The Role of Usp7 in Pediatric Neuroblastoma.

University of Connecticut Health Center

bezsonova@uchc.edu

Sumita Bhaduri-McIntosh, M.D., Ph.D.

(2008 Award Recipient)

The Role of Regulatory T Cells in Immune

Evasion during Establishment and

Maintenance of Latency by EBV

SUNY Stony Brook University

sumita.bhaduri-mcintosh@stonybrook.edu

Diana W. Bianchi, M.D.

(1990 Award Recipient)

Fetal Nucleated Erythrocytes (NRBC) in

Maternal Blood: a Source of Fetal Cells for

Prenatal Diagnosis

National Institute of Child Health and

Human Development

diana.bianchi@nih.gov

Suzy D.C. Bianco, Ph.D.

(2008 Award Recipient)

Altered GPR54 Signaling as the Genetic

Basis of Pubertal Disorders

University of Miami Miller School of Medicine

SBianco@med.miami.edu

Amelia Blackwell, Ph.D.

(1957 Award Recipient)

Diane R. Blake, M.D.

(2001 Award Recipient)

Non-Invasive Chlamydia Screening for

Adolescents: Cost-Effective Analysis

University of Massachusetts Medical School

diane.blake@umassmed.edu

Hans H. Bode, M.D.

(1970 Award Recipient)

Innovative Therapeutic Approaches to a

Variety of Hormonal Deficiency and

Resistance States in Children

Massachusetts General Hospital

Clifford W. Bogue, M.D.

(1994 Award Recipient)

Expression and Regulation of Homeobox

Genes in the Developing Lung

Yale School of Medicine

clifford.bogue@yale.edu

Kira Bona, M.D., M.P.H.

(2018 Award Recipient)

PediCARE: Feasibility of Novel Poverty-Targeted Intervention to Reduce Childhood Cancer Disparities

Harvard Medical School

Kira_bona@dfci.harvard.edu

Charlotte M. Boney, M.D.

(1998 Award Recipient)

Modulation of Mitogenic Signal Transduction during Preadipocyte Differentiation

Rhode Island Hospital

charlotte_boney@brown.edu

Elisa Boscolo, Ph.D.

(2012 Award Recipient)

NOTCH Signaling during Pathological Blood Vessel Formation and Maturation

Boston Children's Hospital

elisa.boscolo@childrens.harvard.edu

Libbie B. Bower, Ph.D.

(1964 Award Recipient)

In support of a program of career recruitment seeking to motivate and create an early interest in the mental health professions among selected junior and senior high school students

Massachusetts Association for Mental Health

Joshua A. Boyce, M.D.

(1995 Award Recipient)

The Role of Hypodense Mononuclear Eosinophils in Pediatric Asthma

Brigham and Women's Hospital

jboyce@rics.bwh.harvard.edu

Renee Boynton-Jarrett, M.D., Ph.D.

(2011 Award Recipient)

A Nested Case-Control Study of Genetic and Psychosocial Determinants of Early Puberty

Boston University School of Medicine

renee.boyntonjarrett@bmc.org

Abraham L. Brass, M.D., Ph.D.

(2010 Award Recipient)

Understanding Intrinsic Immunity: Investigation of IFITM3's Inhibition of Influenza A Virus Infection

University of Massachusetts Medical School

Abraham.Brass@umassmed.edu

Roger E. Breitbart, M.D.

(1993 Award Recipient)

MEF2 Regulation of Early Vertebrate Cardiac Development

Boston Children's Hospital

breitbart@cardio.chboston.org

Andrew S. Brem, M.D.

(1985 Award Recipient)

Hydroosmotic Response to Vasopressin: Relation to Cell pH and Volume

Rhode Island Hospital

andrew_brem@brown.edu

David Breslow, Ph.D.

(2018 Award Recipient)

Defining a cilia-lysosome axis in developmental signaling and cilium-based disease

Yale University

david.breslow@yale.edu

Jan Breslow, M.D.

(1977 Award Recipient)

Cystic Fibrosis: Use of Lymphocyte Cultures for Diagnostic Testing

Boston Children's Hospital

breslow@mail.rockefeller.edu

David M. Briscoe, M.D.

(1993 Award Recipient)

Lymphocyte-Endothelial Cell Interactions in Allograft Rejection: In Vitro and In Vivo Studies

Boston Children's Hospital

david.briscoe@childrens.harvard.edu

Timothy Browder, M.D.

(1993 Award Recipient)

Angiogenesis Switching in Transgenic Retinoblastoma

Boston Children's Hospital

Rosalind S. Brown, M.D., C.M., FRCPC

(1979 Award Recipient)

Thyroid Stimulating Immunoglobins (TSI) in Childhood Graves' Disease (1979)

Boston Children's Hospital

rosalind.brown@childrens.harvard.edu

Elizabeth Brown, M.D.

(1982 Award Recipient)

The Effects of Early Behavioral and Environmental Modification on Infants with Severe Respiratory Distress

Boston Medical Center

Rosalind S. Brown, M.D., C.M., FRCPC

(1982 Award Recipient)

Idiotypic-Antiidiotype Reactions in Childhood Graves' Disease

Boston Children's Hospital

rosalind.brown@childrens.harvard.edu

Robert H. Brown, M.D., D.Phil.

(1984 Award Recipient)

Investigations of the Pathogenesis of Human Motorneuron Disorders Using Poliovirus

University of Massachusetts Medical School

robert.brown@umassmed.edu

Martina Brueckner, M.D.

(1997 Award Recipient)

*Cloning the Mouse *iv* (inversus viscerum) Gene*

Yale School of Medicine

martina.brueckner@yale.edu

Gail A. Bruns, M.D., Ph.D.

(1972 Award Recipient)

A Diagnostic Method for Lysosomal Deficiency Disease

Boston Children's Hospital

bruns@enders.tch.harvard.edu

Virginia M. Burns

(1956 Award Recipient)

Jane C. Burns, M.D.

(1986 and 1987 Award Recipient)

Polymerase Activity in Lymphocyte Culture Supernatants from Patients with Kawasaki Disease: Search for the Etiologic Agent

University of California San Diego School of Medicine

jcburns@ucsd.edu

Heather H. Burris, M.D., M.P.H.

(2013 Award Recipient)

The Epigenetics of the Cervix, Linking the Environment to Spontaneous Preterm Delivery

Beth Israel Deaconess Medical Center

heburriss@bidmc.harvard.edu

Joan R. Butterton, M.D.

(1998 Award Recipient)

Mucosal Immunity to Cholera-Vectored EHEC Antigens

Massachusetts General Hospital

jbutterton@partners.org

Eliezer Calo, Ph.D.

(2018 Award Recipient)

Elucidating Mechanisms Underlying Phenotypic Variation in Craniofacial Disorders

Massachusetts Institute of Technology

calo@mit.edu

Ernesto Canalis, M.D.

(1978 and 1979 Award Recipient)

Effect of Serum Factors on Bone Formation

St. Francis Hospital and Medical Center

ecanalis@stfranciscare.org

Michael Cappello, M.D.

(1996 Award Recipient)

The Hookworm Anticoagulant: A Novel Inhibitor of Tumor Metastasis

Yale School of Medicine

michael.cappello@yale.edu

Dennis E. Carey, M.D.
(1991 Award Recipient)
*Regulation of Growth Plate Chondrocyte
Maturation and Calcification by Thyroid Hormone*
Schneider Children's Hospital of Long Island
carey@lij.edu

Kathleen S. Carlson, M.D.
(1986 Award Recipient)
*Mechanisms of Delayed Lung Maturity in
Fetuses of Diabetic Mothers*
Flower Hospital
kathy.carlson@promedica.org

Thomas O. Carpenter, M.D.
(1987 Award Recipient)
*Use of 24,25(OH)2D3 as Adjunctive Therapy
for Familial Hypophosphatemic Rickets (FHR)*
Yale School of Medicine
thomas.carpenter@yale.edu

Christopher R. Carpenter, M.D., Ph.D.
(1994 Award Recipient)
*PtdIns-4-Phosphate 5-Kinase in p21rac
Signaling,*
Washington University School of Medicine
in St. Louis
carpenterc@wustl.edu

William J. Cashore, M.D.
(1977 Award Recipient)
Displacement of Bilirubin from Albumin by Drugs
Women & Infants Hospital of Rhode Island
wcashore@wihri.org

Emanuela Castigli, Ph.D.
(1994 Award Recipient)
*The B Cell CD40 Antigen: Functional Study
by Gene Targeting and Introduction of
Transgenes*
Boston Children's Hospital
emanuela.castigli@childrens.harvard.edu

K. Lynn Cates, M.D.
(1980 Award Recipient)
Host Response to Haemophilus Influenzae
University of Connecticut Health Center

Elizabeth A. Catlin, M.D.
(1989 Award Recipient)
*Sex-specific Fetal Lung Development and
Mullerian Inhibiting Substance*
Massachusetts General Hospital
ecatlin@partners.org

Valeria Cavazzuti, Ph.D.
(1982 Award Recipient)
*Oculo-motor Rapid Continuous Performance
Tasks (OM-RCPT): a Proposal for Clinical
Assessment of Neurophysiopsychological
Dysfunctions in Young Infants with IVH*
Boston Children's Hospital

Yee-Ming Chan, M.D., Ph.D.
(2013 Award Recipient)
*Kisspeptin as a Novel Tool for the Evaluation
of Delayed Puberty*
Boston Children's Hospital
yee-ming.chan@childrens.harvard.edu

Tien-Lan Chang, M.D.
(1989 Award Recipient)
*The Role of Maternal IgG Antibody in the
Ontogeny of Immune Response to Dietary
Antigens*
Massachusetts General Hospital
tchang5504@aol.com

Luke Chao, Ph.D.
(2018 Award Recipient)
*Characterization of OPA1 membrane
phenotypes in childhood blindness*
Massachusetts General Hospital
chao@molbio.mgh.harvard.edu

Nancy Charest, M.D.
(1990 Award Recipient)
Regulation of Gene Expression in Developing Epididymis
Children's Hospital at Dartmouth

Talal A. Chatila, M.D.
(1989 Award Recipient)
Molecular Basis of Childhood T Cell Immunodeficiencies
Washington University School of Medicine
chatila@pediatrics.wustl.edu

Sarah H. Cheeseman, M.D.
(1982 Award Recipient)
Cytomegalovirus Acquisition in Nursery and Pediatric Nurses -- An Occupational Hazard?
University of Massachusetts Medical School
sarah.cheeseman@umassmed.edu

Dong Feng F Chen, M.D., Ph.D.
(1999 Award Recipient)
Regulation of Neural Differentiation by Ccl-2
Schepens Eye Research Institute
dongfeng_chen@meei.harvard.edu

Chinfei Chen, M.D., Ph.D.
(2001 Award Recipient)
The Effects of Aberrant Neuronal Activity and Seizures on Synapse Maturation in the Mammalian Thalamus
Boston Children's Hospital
chinfei.chen@childrens.harvard.edu

Jing Chen, Ph.D.
(2011 Award Recipient)
Targeting Wnt Pathway for Retinopathy of Prematurity
Boston Children's Hospital
jing.chen@childrens.harvard.edu

Andrew J. Chess, M.D.
(1997 Award Recipient)
Allelic Inactivation of Developmental Regulatory Genes
Mount Sinai School of Medicine
andrew.chess@mssm.edu

Hongbo Chi, Ph.D.
(2004 Award Recipient)
Regulation of Neural Tube Development by MEKK4
St. Jude Children's Research Hospital
hongbo.chi@stjude.org

Helen Christou, M.D.
(2002 Award Recipient)
Molecular Mechanisms Underlying Vascular Responses to Extracellular Acidosis
Boston Children's Hospital
helen.christou@childrens.harvard.edu

Andrea L. Ciaranello, M.D., M.P.H.
(2014 Award Recipient)
Novel Approaches to Improve Medication Adherence among HIV-infected Adolescents: the CEPAC-Adolescent Model
Massachusetts General Hospital
aciaranello@partners.org

Michael J. Cieslewicz, Ph.D.
(2002 Award Recipient)
Transcriptional Regulation of Capsule Biosynthesis in Group B Streptococcus
Boston Children's Hospital
michael.cieslewicz@childrens.harvard.edu

Christos Cladaras, Ph.D.
(1988 Award Recipient)
Genetic Variation in the Receptor Binding Domain of ApoB-100 and Atherosclerosis
Boston Medical Center

Laurie E. Cohen, M.D.
(1996 Award Recipient)
Molecular Mechanisms of Pit-1 Gene Mutations in Combined Pituitary Hormone Deficiency
Boston Children's Hospital
laurie.cohen@childrens.harvard.edu

Steven D. Colan, M.D.

(1984 Award Recipient)

Arterial Input Impedance by a Noninvasive Technique

Boston Children's Hospital

colan@alum.mit.edu

F. Sessions Cole, M.D.

(1981 Award Recipient)

Genetic and Developmental Regulation of Complement

Biosynthesis in Monocytes and Macrophages

St. Louis Children's Hospital

cole@kids.wustl.edu

Jonathan Seth Comer, Ph.D.

(2012 Award Recipient)

A Controlled Trial of Telemethods to Expand the Availability of Parent-Child Interaction

Therapy for Disruptive Preschoolers

Florida International University

jocomer@FIU.edu

John P. Connelly, M.D.

(1971 Award Recipient)

Pediatric Nurse Practitioner Program

Massachusetts General Hospital

John C. Coolidge, M.D.

(1963 Award Recipient)

Follow-up Study to a 1953 Study of Children

who Evidenced School Phobia

Judge Baker Children's Center

Cathleen L. Cooper, Ph.D.

(1998 Award Recipient)

Transcriptional Control of Cell Cycle

Progression and Normal Blood Development

The Center for Scientific Review at the

National Institutes of Health

cooperc@csr.nih.gov

Douglas B. Cowan, Ph.D.

(2000 Award Recipient)

Endotoxin-Induced Cardiac Signal Transduction

Boston Children's Hospital

douglas.cowan@childrens.harvard.edu

April M. Craft, Ph.D.

(2016 Award Recipient)

Identifying Mechanisms of Cartilage

Homeostasis and Degeneration Through the use of Patient Specific iPSCs

Boston Children's Hospital

april.craft@childrens.harvard.edu

Aidan K. Curran, B.Sc., Ph.D.

(2001 Award Recipient)

Ventral Medullary Inhibition and Control of Upper Airway (UA) Patency Following Acute

Increases in Blood Pressure; Implications for Sudden Infant Death Syndrome (SIDS)

Geisel Medical School at Dartmouth

aidan.k.curran@dartmouth.edu

Florence Cyr, M.S.

(1957 Award Recipient)

William Dameshek, M.D.

(1949 Award Recipient)

Research in Hematology

Tufts Medical Center

Christiane E. I. Dammann, M.D.

(2001 Award Recipient)

The Role of Neuregulin in Fetal Surfactant Synthesis

Tufts Medical Center

dammann.christiane@mh-hannover.de

Alan D. D'Andrea, M.D.

(1989 Award Recipient)

Function of the Erythropoietin Receptor in Normal Erythropoiesis and in Pediatric

Disease States

Dana-Farber Cancer Institute

Alan_Dandrea@dfci.harvard.edu

Alan J. Davidson, M.D., Ph.D.

(2005 Award Recipient)

Role of the cdx Genes and their Downstream Targets in Hematopoietic Stem Cell Formation

Massachusetts General Hospital

ajdavidson@partners.org

Michael A. Davis, Sc.D.

(1972 Award Recipient)

*Evaluation of Bone-Scanning Agent
(Technetium-99m Polyphosphate)*

Boston Children's Hospital

synergyltd@aol.com

David J. DeFranco, D.M.D., D.M.Sc.

(1991 Award Recipient)

*Influences of Mechanical Forces on Gene
Expression during Craniofacial Development*

Milan Dentists & Orthodontists

ddefranco@tin.it

Marcelo de Oliveira Dietrich, M.D.

(2015 Award Recipient)

*Hypothalamic Circuits Underlying Brain
Development during Childhood*

Yale School of Medicine

marcelo.dietrich@yale.edu

Penelope H. Dennehy, M.D.

(1985 Award Recipient)

*Nosocomial Rotavirus Infection - Possible
Routes of Transmission*

Rhode Island Hospital

penelope_dennehy@brown.edu

Lee A. Denson, M.D.

(2000 Award Recipient)

Cytokine Regulation of Growth Hormone Signaling

Cincinnati Children's Hospital Medical Center

lee.denson@cchmc.org

Paul DePaola

(1966 Award Recipient)

*Support of a Reevaluation of the Dental Health of
Children who had participated in the Study of
Prophylaxis Incorporated in the Dental Screening
of the 1965 "Head Start Program" in Cambridge*

Cambridge Community Services

Ruben Diaz, M.D., Ph.D.

(1997 Award Recipient)

*Calcium Sensing Receptor Regulation of
Parathyroid Hormone*

Boston Children's Hospital

Lindsay J. DiStefano, Ph.D.

(2013 Award Recipient)

*Pediatric Lower Extremity Injury Prevention:
Monitoring Changes over Time*

University of Connecticut

lindsay.distefano@uconn.edu

Patricia K. Donahoe, M.D.

(1973 Award Recipient)

*Study of Factors, Which Control Regression
of Fetal Organs that May Have Clinical
Application to the Control of Childhood
Tumor Growth*

Massachusetts General Hospital

pdonahoe@partners.org

Robert M. Donaldson, M.D.

(1970 Award Recipient)

*Development of Intestinal Function,
Particularly Protein Absorption, in the Fetus
and Newborn*

Boston Medical Center

Lesley Doughty, M.D.

(2001 Award Recipient)

Viral Modulation of the Immune Response

Cincinnati Children's Hospital Medical
Center

lesley.doughty@cchmc.org

Simon L. Dove, Ph.D.

(2002 Award Recipient)

*Proteins from the Bacterial Pathogen
Pseudomonas Aeruginosa that Interact with
its Transcription Machinery*

Boston Children's Hospital

simon.dove@childrens.harvard.edu

George Dragoi, M.D., Ph.D.
(2016 Award Recipient)
Brain Mechanisms underlying Cognitive Development during Childhood
Yale School of Medicine
george.dragoi@yale.edu

Evan B. Dreyer, M.D., Ph.D.
(1989 Award Recipient)
A Thy-1 Receptor and CNS Neurite Outgrowth
Glaucoma Cataract Consultants
evandreyer@yahoo.com

Raymond S. Duff, M.D.
(1968 Award Recipient)
To Study the Interrelationships Between Patient Care and Professional Learning in a Large, Urban Pediatric Clinic
Yale School of Medicine

Frank H. Duffy, M.D.
(1973 Award Recipient)
Pilot Study of the Use of the Visual Evoked Response in the Diagnosis of Amblyopia Ex Anopsia at an Earlier Age (Infancy) than is now Possible using Standard Techniques

(1973) - *Study of Biculline Response in Experimental Amblyopia (1976)*
Boston Children's Hospital
frank.duffy@childrens.harvard.edu

Anna Dunaevsky, Ph.D.
(2002 Award Recipient)
Synapse Formation and Maintenance in Normal and GluR2 Deficient Mice
University of Nebraska Medical Center
adunaevsky@unmc.edu

Jeffrey Daniel Dvorin, M.D., Ph.D.
(2011 Award Recipient)
Functional Characterization of an Essential Protein Kinase in the Malaria Parasite Plasmodium Falciparum
Boston Children's Hospital
Jeffrey.Dvorin@childrens.harvard.edu

Paul J. Edelson, M.D.
(1979 Award Recipient)
A Tissue Culture Model of Chronic Granulomatous Disease
Boston Children's Hospital
pe30@columbia.edu

Roger A. Edwards, Sc.D.
(2012 Award Recipient)
Use of a Computer Agent to Promote and Support Breastfeeding
Northeastern University
rogeredwards2002@hotmail.com

R.H. Egdahl, M.D.
(1964 Award Recipient)
Assist Two New Members in the Department of Surgery to Initiate and Establish Research in Cardiovascular Fetal Physiology and Endocrinology
Boston University School of Medicine

Richard A. Ehrenkranz, M.D.
(1979 Award Recipient)
Detection of In-Vivo Lipid Peroxidation during Oxygen Administration to Neonates (1979) - Composition and Nutritional Quality of Preterm Human Milk (1980)
Yale School of Medicine

(1980 Award Recipient)
Composition and Nutritional Quality of Preterm Human Milk
Yale School of Medicine
richard.ehrenkranz@yale.edu

Stephanie C Eisenbarth, M.D., Ph.D.
(2013 Award Recipient)
Targeting Dendritic Cells to Block Allergen Sensitization in Asthma
Yale School of Medicine
stephanie.eisenbarth@yale.edu

R. Cannon Eley, M.D.
(1967 Award Recipient)
*Partial Support of the Establishment of a
Cystic Fibrosis Clinic*
Roger Williams Medical Center

Martha M. Eliot, M.D.
(1959 Award Recipient)
*Grants towards Furthering the Overall
Purposes and Programs of the
Massachusetts Committee on Children and
Youth (1959-1967)*
Mass. Committee on Children and Youth

Felix Engel, Ph.D.
(2006 Award Recipient)
*Promotion of Mammalian Cardiac Regeneration
through Cardiomyocyte Proliferation*
Boston Children's Hospital
felix.engel@childrens.harvard.edu

Elizabeth C. Engle, M.D.
(1997 Award Recipient)
*Cloning the Gene for Congenital Fibrosis of
the Extraocular Muscles*
Boston Children's Hospital
elizabeth.engle@childrens.harvard.edu

Michael F. Epstein, M.D.
(1978 Award Recipient)
*Beta-sympatho-mimetic Agonists and Fetal
Lung Surfactant Metabolism*
Beth Israel Deaconess Medical Center
mepstein@bidmc.harvard.edu

Richard W. Erbe, M.D.
(1976 Award Recipient)
*Disordered Amino Acid Metabolism in
Oculocerebral Renal Syndrome of Lowe*
Women & Children's Hospital of Buffalo
folate@aol.com

Alan B. Ezekowitz, MBChB, DPhil, FAAP
(1985 Award Recipient)
*Molecular Cloning of an Interferon
Responsive Macrophage Specific Receptor*
Abide Therapeutics

John T. Fahey, M.D.
(1987 Award Recipient)
*Mechanism of Lactic Acidemia During Low
Cardiac Output in Lambs: Changes with
Postnatal Age*
Yale School of Medicine
john.fahey@yale.edu

Douglas V. Faller, M.D., Ph.D.
(1983 Award Recipient)
*The Use of Cloned Tumor-Virus Gene
Products and H-2 Gene Products to Study
the Recognition and Rejection of Tumor
Cells by Killer T Lymphocytes*
Boston University School of Medicine
dfaller@bu.edu

Susan E. Fasoli, Sc.D., OTR
(2005 Award Recipient)
*Upper Limb Rehabilitation Robotics for
Children with Cerebral Palsy*
Spaulding Rehabilitation Hospital
sfasoli@partners.org

David Faust, Ph.D.
(1984 Award Recipient)
*The Neuropsychological Functioning of
Children with Moderately Raised Lead Levels*
University of Rhode Island
faust@uri.edu

Margaret E. Feeney, M.D.
(2004 Award Recipient)
*Pediatric HIV-specific Immune Responses
and AIDS-free Survival*
University of California- San Francisco-
School of Medicine
feeneym@medsfgh.ucsf.edu

Francis X. Fellers, M.D.

(1967 Award Recipient)
Research Fellowship on "A New Method of Dietary Management for Children Afflicted with Cystinosis" (1967) - Research Concerning Adequate-Diet Bone Disease Syndrome in Children (1969)
Boston Children's Hospital

John D. Fernstrom, Ph.D.

(1973 Award Recipient)
Milk Constituents and Brain Serotonin Synthesis
Massachusetts Institute of Technology
fernstromjd@msx.upmc.edu

James L.M. Ferrara, M.D.

(1987 Award Recipient)
In Vivo Use of Anti-LFA-1 to Enhance Engraftment and Prevent Graft-Versus-Host Disease after Bone Marrow Transplantation
University of Michigan
ferrara@umich.edu

Lindo Ferrini, M.S.W.

(1955 Award Recipient)
Cottage Parents at Residential Treatment Centers for Children

Stefan Feske, M.D.

(2006 Award Recipient)
Identification of a Genetic Defect Causing Immunodeficiency, Myopathy and Ectodermal Dysplasia
New York University School of Medicine
Stefan.Feske@med.nyu.edu

John M. Fiascone, M.D.

(1987 Award Recipient)
The Effect of Terbutaline Administration on Lung Function in the Fetal Rabbit Model of Respiratory Distress Syndrome
Tufts Medical Center
ifiascone@tuftsmedicalcenter.org

Barry A. Finette, M.D., Ph.D.

(1993 Award Recipient)
Molecular Effects of Passive and Active Maternal Cigarette Smoking in Normal Human Newborns
University of Vermont College of Medicine
barry.finette@uvm.edu

Judith C. Fleming, Ph.D.

(2002 Award Recipient)
Functional Analysis of the Thiamine Transporter, SLC19A3
Boston Children's Hospital
judith.fleming@childrens.harvard.edu

Johnathan A. Fletcher, M.D.

(1990 Award Recipient)
Cytogenetic Analysis of Bone and Soft Tissue Tumors of Childhood
Brigham and Women's Hospital
jfletcher@partners.org

Mark A. Fletcher, M.D.

(1993 Award Recipient)
Development of Novel Antibodies against Gram-Negative Bacteria
Wyeth Pharmaceuticals France

Eric S. Folker, Ph.D.

(2014 Award Recipient)
The Role of Nuclear Positioning in Centronuclear Myopathies
Boston College
eric.folker@bc.edu

Pamela Follett, M.D.

(2003 Award Recipient)
The Role of Repetitive Hypoxia in Premature White Matter Injury
Lewis Rhodes Labs
pamela.follet@earthlink.net

Yick W. Fong, Ph.D.

(2014 Award Recipient)

The Role of the Dyskerin Complex in Stem Cell-specific Transcriptional Control and the Pathogenesis of Dyskeratosis Congenita

Brigham and Women's Hospital

YFong@partners.org

Sarah Fortune, M.D.

(2007 Award Recipient)

At the Host-Pathogen Interface: Characterization of a Candidate Mycobacterial Toxin

Harvard School of Public Health

sfortune@hsph.harvard.edu

Michela Frascoli, Ph.D.

(2018 Award Recipient)

Identification of the Embryonic Lymphoid Progenitors of Neonatal IL-17 Producing T Cells

University of Massachusetts Medical School

Michela.Frascoli@umassmed.edu

Ramsay L. Fuleihan, M.D.

(1992 Award Recipient)

Regulation of HIV-1 Gene Expression by Ia Molecules

Northwestern University

r-fuleihan@northwestern.edu

Nadine Gaab, Ph.D.

(2008 Award Recipient)

Neural Pre-Markers of Developmental Dyslexia in Children prior to Reading Onset

Boston Children's Hospital

nadine.gaab@childrens.harvard.edu

Mae Gailani, M.D.

(1997 Award Recipient)

Identification of Protein Interactions with Human Patched

Yale School of Medicine

Alison A. Galbraith, M.D., M.P.H.

(2006 Award Recipient)

Children in High-Deductible Health Plans: Health Care Use and Impact of Chronic Conditions

Harvard Pilgrim Health Care

alison_galbraith@hphc.org

Patrick Gallagher, M.D.

(1993 Award Recipient)

Molecular Mechanisms of Regulation of the Human Erythrocyte Ankyrin Gene

Yale School of Medicine

patrick.gallagher@yale.edu

Jenna L. Galloway, Ph.D.

(2016 Award Recipient)

The Role of a Novel Pathway in Vertebrate Tendon Development

MGH Center for Regenerative Medicine

Jgalloway1@mgh.harvard.edu

George E. Gardner, M.D., Ph.D.

(1957 Award Recipient)

Anorexia Nervosa

Boston Children's Hospital

(1959 Award Recipient)

Construction of an Emotional Development Task Test

Boston Children's Hospital

Arvin Garg, M.D., M.P.H.

(2012 Award Recipient)

Do Basic Unmet Material Needs and Social Safety Nets Influence Child Maltreatment Risk? A Nested Case-Control Study

Boston Medical Center

arvin.garg@bmc.org

Scott C Garman, Ph.D.

(2005 Award Recipient)

Structural Studies on Fabry Disease

University of Massachusetts Amherst

garman@biochem.umass.edu

Stanley Garn, B.A.

(1947 Award Recipient)

Karen M. Gaudio, M.D.

(1984 Award Recipient)

Treatment of Acute Renal Failure

Yale School of Medicine

Raif S. Geha, M.D.

(1978 and 1979 Award Recipient)

Regulation of the Human Immune Response

Boston Children's Hospital

raif.geha@childrens.harvard.edu

Niels Geijsen, Ph.D.

(2004 Award Recipient)

Dissection of Molecular Pathways

Mediating Epigenetic Gene Modification

Hubrecht Institute

n.geijsen@hubrecht.eu

Sydney S. Gellis, M.D.

(1954 Award Recipient)

Amino Acid Metabolism in Children

Rachel M. Gerstein, Ph.D.

(1998 Award Recipient)

Extrinsic Factors Controlling B Cell Development

University of Massachusetts Medical School

rachel.gerstein@umassmed.edu

Joseph M. Gertner, M.B., MRCP

(1978 Award Recipient)

Studies on Stress-Related Neonatal Hypocalcemia

Yale School of Medicine

j.gertner@rcn.com

Tal Geva, M.D.

(1999 Award Recipient)

Mechanism of right ventricular dysfunction

due to chronic pulmonary regurgitation

Boston Children's Hospital

tal.geva@childrens.harvard.edu

Satish Ghatpandes, Ph.D.

(2006 Award Recipient)

Novel Mechanisms of Embryo-Protection: The

Role of Adenosine Action in the Developing Heart

Achillion Pharmaceuticals Inc.

ghatpandes@gmail.com

Matthew W. Gillman, M.D., S.M.

(1988 Award Recipient)

Tracking of Childhood Blood Pressure

Harvard Pilgrim Health Care

(1990 Award Recipient)

Multiple-Visit Tracking of Blood Pressure

from Childhood to Early Adulthood

National Institutes of Health

Matthew.gillman@nih.gov

David N. Glass, M.D.

(1977 Award Recipient)

HLA Genetics of Juvenile Arthritis

Brigham and Women's Hospital

Verena Gobel, M.D.

(1994 Award Recipient)

Neurofibromatosis II (NF2) Tumor

Suppressor Gene Homologs in c. elegans

Massachusetts General Hospital

vgobel@partners.org

Donald Goldmann, M.D.

(1981 Award Recipient)

Neonatal E. Coli K1 Colonization and

Infection: the Role of Bacterial Pili

Boston Children's Hospital

don.goldmann@childrens.harvard.edu

Allan M. Goldstein, M.D.

(2003 Award Recipient)

A New Model of Intestinal Aganglionosis:

Essential Role for BMP4 in Enteric Nervous

System Development

Massachusetts General Hospital

agoldstein@partners.org

Allan Goodman, M.D.
(1968 Award Recipient)
Massachusetts Parents Association for the Deaf and Hard of Hearing
Boston Children's Hospital

Julie Elizabeth Goodwin, M.D.
(2011 Award Recipient)
The Role of the Endothelial Glucocorticoid Receptor in the Development of Atherosclerosis
Yale School of Medicine
julie.goodwin@yale.edu

Catherine M. Gordon, M.D., M.Sc.
(2001 Award Recipient)
Vitamin D Screening in Adolescents
Cincinnati Children's Hospital Medical Center
catherine.gordan@cchmc.org

Richard Iain Gregory, Ph.D.
(2007 Award Recipient)
The Role of MicroRNAs in DiGeorge Syndrome
Boston Children's Hospital
rgregory@enders.tch.harvard.edu

Carol L. Griffin
(1965 Award Recipient)
In support of a pilot demonstration concerning the effectiveness of therapeutic tutoring as an adjunct to psychotherapy of children with refractory learning disabilities
South Shore Mental Health

Jeffrey R. Gruen, M.D.
(1990 Award Recipient)
Identifying DNA Landmarks for Primary Hemochromatosis
Yale School of Medicine
jeffrey.gruen@yale.edu

Nicholas G. Guerina, M.D., Ph.D.
(1989 Award Recipient)
Development of a Pilus Vaccine against Haemophilus Influenzae
Tufts Medical Center
nguerina@tuftsmedicalcenter.org

David A. Guertin, Ph.D.
(2010 Award Recipient)
Nutrient Sensing Pathways in Muscle Regeneration
University of Massachusetts Medical School
david.guertin@umassmed.edu

Shangqin Guo, Ph.D.
(2016 Award Recipient)
Molecular Definition of Cancer Cell-of-Origin in B-ALL
Yale School of Medicine
Shangqin.guo@yale.edu

Vandana Gupta, Ph.D.
(2014 Award Recipient)
Elucidation of Molecular Pathways and Therapeutic Developments in Nemaline Myopathy
Brigham and Women's Hospital
vgupta4@partners.org

Emanuela Gussoni, Ph.D.
(2000 Award Recipient)
Isolation and Characterization of Stem Cells from Human Skeletal Muscle
Boston Children's Hospital
gussoni@enders.tch.harvard.edu

H. I. Margolis, D.M.D.
(1955 Award Recipient)
In Vivo Technique for the Evaluation of Bone Mineralization Variations in Children

M. Kyle Hadden, Ph.D.
(2012 Award Recipient)
Vitamin D3 Analogues as Hedgehog Pathway Inhibitors
University of Connecticut
kyle.hadden@uconn.edu

James E. Haddow, M.D.
(1971 Award Recipient)
Divalent Metal Excretion: Enhancement by Spironolactone
Boston University School of Medicine
jhaddow@fbr.org

Margarita Hadzopoulou-Cladaras, Ph.D.

(1991 Award Recipient)
ApoB Domain Required for LDL Assembly and Secretion
Aristotle University of Thessaloniki
cladaras@bio.auth.gr

Robert J. Haggerty, M.D.

(1959 Award Recipient)
Funds to employ a social worker to the staff of the Family Health Care Program in cooperation with the Boston Lying-In Hospital and Children's Hospital
Harvard Medical School

Joseph J. Hallett, M.D.

(1980 Award Recipient)
Effect of Warfarin on Chondrogenesis
Memorial Hospital of Rhode Island
joseph_hallett@brown.edu

Silva H. Hanissian, Ph.D.

(1996 Award Recipient)
Structural Analysis of CD40 Signaling
University of Tennessee Health Science Center

Paul R. Harmatz, M.D.

(1981 and 1982 Award Recipient)
A Study of the Transport of IgZ Immune Complexes into Breastmilk and the Binding and Transport of IgA Immune Complexes into the Neonatal Intestine
Children's Hospital and Rehabilitation Center of Oakland
pharmatz@mail.cho.org

Jason B Harris, M.D., M.P.H.

(2009 Award Recipient)
Cellular Immune Responses to Vibrio Cholerae Infection
Massachusetts General Hospital
jbharris@partners.org

John E. Harris, M.D., Ph.D.

(2011 Award Recipient)
Targeting the IFN-Gamma Signaling Pathway for the Treatment of Vitiligo
University of Massachusetts Medical School
John.Harris@umassmed.edu

Emil M. Hartl, Ph.D.

(1956 Award Recipient)
A Group Therapy Pilot Project
(1964 Award Recipient)
Objective Assessment of an Experimental Program which is concerned with the Socialization to Work with the Problem Adolescent
Charles Hayden Goodwill Inn for Boys

Steven Hatch, M.D.

(2011 Award Recipient)
Maternally Derived Anti-Dengue Antibodies and the Risk of DHF in Infants
University of Massachusetts Medical School
steven.hatch@umassmed.edu

Judith Hellman, M.D.

(1998 Award Recipient)
In Vitro Biological Activity of Endotoxin Associated Outer Membrane Proteins
University of California San Francisco
hellmanj@anesthesia.ucsf.edu

Sonia Hernandez-Diaz, M.D., D.P.H.

(2004 Award Recipient)
Endocrine Disruptors and Male Genital Malformations
Harvard School of Public Health
shernan@hsph.harvard.edu

John T. Herrin, MBBS, FRACP

(1971 Award Recipient)
Protein Excretion as an Indicator of Prognosis and Correlation with Therapy
Boston Children's Hospital
john.herrin@childrens.harvard.edu

Victoria L. Herzberg, Ph.D.
(1984 and 1985 Award Recipient)
The Role of Insulin and Insulin-Like Growth Factors in Normal and Abnormal Cell Proliferation
Geisel Medical School at Dartmouth

Joseph A. Hill, M.D., Ph.D.
(1994 Award Recipient)
Long Q-T Syndrome and Molecular Mechanism of a Cardiac Arrhythmia
UT Southwestern Medical School
joseph.hill@utsouthwestern.edu

Raymond L. Hintz, M.D.
(1972 Award Recipient)
Study of the Role Played by Somatomedin in Fetal Growth and Development
University of Connecticut
hintz@stanford.edu

Hillel I. Hochman, M.D.
(1974 Award Recipient)
In Support of Experimental Studies on Idiopathic Lactic Acidosis
Boston City Hospital

W. Andrew Hodge, M.D.
(1985 Award Recipient)
The Impositions of Posture on Stance Equilibrium in the Spastic Quadriplegic Child
Hodge BioMotion Orthopedics
wandrewhodgemd@aol.com

Diane Hoffman-Kim, Ph.D.
(2004 Award Recipient)
Axon Guidance by Permissive and Inhibitory Molecular Gradients
Brown University
diane_hoffman-kim@brown.edu

Ingrid A. Holm, M.D., M.P.H.
(1995 Award Recipient)
Localization of the Gene Defective in X-Linked Hypophosphatemic Rickets
Boston Children's Hospital
ingrid.holm@childrens.harvard.edu

Lewis B. Holmes, M.D.
(1972 Award Recipient)
Improving the Diagnostic Evaluation and Genetic Counseling of Congenitally Malformed Newborn Infants (1972) - Role of Extracellular Matrix in Limb Malformation in Mice and Humans (1975)
Massachusetts General Hospital
holmes.lewis@mgh.harvard.edu

(1984 Award Recipient)
Effect of Hormones on the Development of Seizures in the Immature Brain
Dartmouth-Hitchcock Medical Center
gregory.l.holmes@dartmouth.edu

Alan C. Homans, M.D.
(1989 Award Recipient)
Hematopoiesis in Down syndrome
Fletcher Allen Health Care
alan.homans@vtmednet.org

Bruce H. Horwitz, M.D., Ph.D.
(1999 Award Recipient)
Regulation of Co-Stimulatory activity by NF-kappaB
Brigham and Women's Hospital
bhorwitz@rics.bwh.harvard.edu

Margaret K. Hostetter, M.D.
(1980 Award Recipient)
C3b Binding Affinities of Pneumococcal Polysaccharides: a Correlate of Virulence in Childhood Pneumococcal Bacteremia
Cincinnati Children's Hospital Medical Center
margaret.hostetter@cchmc.org

Peter J. Hotez, M.D., Ph.D.

(1992 Award Recipient)
*Molecular Pathogenesis of Pediatric
Hookworm Infection*
Baylor College of Medicine
hotez@bcm.edu

Thomas J. Hougen, M.D.

(1980 Award Recipient)
Myocardial Monovalent Cation Transport in Man
Georgetown University Hospital
thougen@aol.com

Anna T. Howard

(1960 Award Recipient)
*Completion of the Massachusetts Survey of
Nursing Needs and Resources*
MA/Rhode Island League for Nursing

Victor W. Hsu, M.D.

(1996 Award Recipient)
Mechanism of Cellular Quality Control
Brigham and Women's Hospital
vhsu@rics.bwh.harvard.edu

Johannes Huebner, M.D.

(1998 Award Recipient)
*Capsular Polysaccharides and Enterococcal
Infections*
Brigham and Women's Hospital

Christopher Hug, M.D., Ph.D.

(2004 Award Recipient)
*Signaling of Acrp30/Adiponectin and T-
cadherin in Diabetes*
Boston Children's Hospital
christopher.hug@childrens.harvard.edu

James R. Hughes, M.D., M.P.H.

(1968 Award Recipient)
*To Determine How Primary Medical Care is
Being Delivered in a Rural Community
Where No Systematic Program Exists for
Reaching the Pre-School Population*
Dartmouth-Hitchcock Medical Center
james.r.hughes@dartmouth.edu

Robert Husson, M.D.

(1992 Award Recipient)
*Maternal Immunity and Virus Variation in
Vertical HIV Transmission*
Boston Children's Hospital
robert.husson@childrens.harvard.edu

Newton E. Hyslop, M.D.

(1972 Award Recipient)
*Studies on Human Milk and Nutritional
Requirements of Lactating Human Females*
Massachusetts General Hospital
nhyslop@tulane.edu

Dimitrios Iliopoulos, Ph.D.

(2011 Award Recipient)
*Identification of Novel Molecular Circuits in
Pediatric Ulcerative Colitis*
Dana-Farber Cancer Institute
dimitrios_iliopoulos@dfci.harvard.edu

Julie R. Ingelfinger, M.D.

(1977 Award Recipient)
*Renal Perfusion and Function in Post-
Transplant Hypertension*
Boston Children's Hospital
jingelfinger@partners.org

Hiroyuki Inuzuka, Ph.D.

(2015 Award Recipient)
*Targeting Fbw7 for the Treatment of
Pediatric T-cell Acute Lymphoblastic
Leukemia (T-ALL)*
Beth Israel Deaconess Medical Center
hinuzuka@bidmc.harvard.edu

Esther Jacobwitz Israel, M.D.

(1987 Award Recipient)
*A Study of the Development of the Human
Intestinal Barrier*
Massachusetts General Hospital
eisrael1@partners.org

Shirley Jankelevich, M.D.

(1994 Award Recipient)

Interaction of Epstein-Barr Virus with Nuclear Matrix and Metaphase Scaffold
National Inst. Allergy & Infectious Diseases

Esther Jaquith

(1960 Award Recipient)

Support of a Single Interagency Service for the Registration of Adoptive Children and Homes
Massachusetts Adoption Resource Exchange

Patrick Y. Jay, M.D., Ph.D.

(2002 Award Recipient)

The Function of Nkx2-5 in Cardiac Hypertrophy and Failure
Washington University School of Medicine
jay_p@kids.wustl.edu

Douglas M. Jefferson, Ph.D.

(1987 Award Recipient)

Regulation of Liver Specific Gene Expression
Tufts University School of Medicine
douglas.jefferson@tufts.edu

Frances E Jensen, M.D.

(1992 Award Recipient)

Acute and Long-Term Anti-convulsant Efficacy of Novel Excitatory Amino Antagonists in a Model of Hypoxia-Induced Neonatal Seizures
Hospital of the University of Pennsylvania
frances.jensen@uphs.upenn.edu

Jun Jiang, M.D., Ph.D.

(2014 Award Recipient)

Trisomy Correction in Down's Syndrome Mouse Models
University of Massachusetts Medical School
jun.jiang@umassmed.edu

George M. Johnson, M.D.

(1990 Award Recipient)

Pathogenesis of Staphylococcus Epidermis Infections: the Roles and Mechanisms of Extracellular Bacterial Products in Evasion of Opsonophagocytic Killing
Medical University of South Carolina
johnsogm@musc.edu

Chester N. Jones, M.D.

(1946 Award Recipient)

Study of Nutritional Requirements in Disease
Massachusetts General Hospital

Paul Jubinsky, M.D., Ph.D.

Broad Institute of MIT and Harvard

agoren@broad.mit.edu

Lisa M. Guay-Woodford, M.D.

(1990 Fellow)

The Molecular Basis of Autosomal Recessive Polycystic Kidney Disease in the cpk Mouse and Man

Boston Children's Hospital

Timothy J. Hemesath, Ph.D.

(1996 Fellow)

Microphthalmia, a Myc-Related Transcription Factor Critical in Development

Edel Maria Hyland, Ph.D.

(2011 Fellow)

Targeting Antibiotic Resistance by Defining the Molecular Basis for Segregation Dependent Plasmid Incompatibility in Bacteria

Harvard University

ehyland@mcb.harvard.edu

Nitya Jain, Ph.D.

(2013 Fellow)

Understanding Neonatal Immunity: The Influence of Gut Microbial Colonization on Neonatal Adaptive Immunity

Massachusetts General Hospital

njain@ccib.mgh.harvard.edu

Patricia Jensen, Ph.D.

(2006 Fellow)

Genetic Sublineages of the Mammalian Serotonergic System

National Institute of Environmental Health Sciences

jensenp3@niehs.nih.gov

Isaac S. Kohane, M.D., Ph.D.

(1993 Fellow)

Knowledge-Based Automated Detection and Classification of Growth Disorders

Boston Children's Hospital

isaac_kohane@harvard.edu

Stella Kourembanas, M.D.

(1989 Fellow)

Studies on Regulation of Platelet-Derived Growth Factor Production by Endothelial Cells

Boston Children's Hospital

Stella.Kourembanas@childrens.harvard.edu

Hsiang-Ying Lee, Ph.D.

(2015 Fellow)

Dissecting Molecular Mechanisms Underlying Erythroid Progenitor BFU-E Self-renewal

Whitehead Institute for Biomedical Research

hsylee@wi.mit.edu

Angela M. Leung, M.D.

(2009 Fellow)

Breast Milk Iodine and Perchlorate Concentrations: Effect on Infant Thyroid Function

Boston Medical Center

angela.leung@bmc.org

Malcolm Logan, Ph.D.

(1999 Fellow)

An Analysis of Limb-type Specification and Limb Patterning in the Chick and Mouse

MRC National Institute for Medical Research

mlogan@nimr.mrc.ac.uk

Juliette C. Madan, M.D.

(2004 Fellow)

Indomethacin Use for Closure of Patent Ductus Arteriosus in VLBW Infants: Association with Necrotizing Enterocolitis and Spontaneous Intestinal Perforation
Dartmouth-Hitchcock Medical Center
juliette.madan@hitchcock.org

Junhao Mao, Ph.D.

(2005 Fellow)

The Roles of the Hedgehog Pathway in Adult Muscle Stem Cells and Rhabdomyosarcoma
University of Massachusetts Medical School
junhao.mao@umassmed.edu

Maitreyi Mazumdar, M.D., M.P.H.

(2006 Fellow)

Health Insurance and Utilization of Services of Children with Epilepsy
Boston Children's Hospital
maitreyi.mazumdar@childrens.harvard.edu

Catherine J. Merrick, Ph.D.

(2008 Fellow)

Epigenetic Control of Virulence Gene Expression in the Malarial Parasite P. Falciparum
Keele University
c.merrick@biol.keele.ac.uk

Ganeshwaran H. Mochida, M.D., M.M.Sc.

(2002 Fellow)

Genetic and Clinical Analysis of Autosomal Recessive Microcephaly
Massachusetts General Hospital
gmochida@partners.org

M. Golam Mohi, Ph.D.

(2004 Fellow)

Role of Shp2 and its Binding Protein Gab2 in Leukemogenesis
SUNY Upstate Medical University
mohim@upstate.edu

Jaime Murphy, M.D.

(2007 Fellow)

Circulating Mesenchymal Precursors with Fibrogenic Potential in Asthma
Boston Medical Center
murphj04@bu.edu

George A. O'Toole, Ph.D.

(1998 Fellow)

Genetic Analyses of Biofilm Formation by Pseudomonas aeruginosa
Dartmouth-Hitchcock Medical Center
george.a.otoole@dartmouth.edu

Suzanne Paradis, Ph.D.

(2003 Fellow)

A Role for Ephrin/EphB Signaling in Synapse Formation and Maturation
Brandeis University
paradis@brandeis.edu

Gulcin Pekkurnaz, Ph.D.

(2014 Fellow)

O-GlcNAcylation: A Glucose Sensing Pathway for Mitochondria and Energy Homeostasis
Boston Children's Hospital
gulcin.pekkurnaz@childrens.harvard.edu

Miguel N. Rivera, M.D.

(2007 Fellow)

Characterization of WTX, a Novel Tumor Suppressor Frequently Inactivated in Wilms Tumor
Massachusetts General Hospital
mnrivera@partners.org

Hyun Cheol Roh, Ph.D.

(2014 Fellow)

Molecular Mechanisms Underlying Beige Adipocyte Dynamics in Response to Thermal Challenges
Beth Israel Deaconess Medical Center
hroh@bidmc.harvard.edu

Kathleen A. Ryan, Ph.D.

(1992 Fellow)

Genetic Analysis of Lipophosphoglycan Biosynthesis in Leishmania Donovanii

Gerhard Schratt, Ph.D.

(2005 Fellow)

Investigating the Molecular Mechanism of BDNF-Regulated Local Dendritic Translation in Mammalian Neurons

University of Marburg

gerhard.schratt@staff.uni-marburg.de

Upasna Sharma, PhD

(2016 Fellow)

Epigenetic Inheritance of Paternal Environmental Conditions

University of Massachusetts Medical School

Fnu.upasna@umassmed.edu

Elenoe Smith, PhD

(2016 Fellow)

Modeling and Disrupting Non-Coding Regulatory DNA Sequences to Inform Sickle Cell Disease Therapy

Boston Children's Hospital

esmith@bloodgroup.tch.harvard.edu

Anushua Sinha, M.D., M.P.H.

(2000 Fellow)

Impact of Widespread Antibiotic Use at Delivery on Newborn Outcomes

Rutgers Univ. New Jersey Medical School

sinhaan1@nims.rutgers.edu

Janet S. Soul, M.D., C.M., FRCPC

(2001 Fellow)

Early Detection of Brain Injury in Posthemorrhagic Hydrocephalus

Boston Children's Hospital

janet.soul@childrens.harvard.edu

Dan Stoleru, M.D., Ph.D.

(2008 Fellow)

Gene Replacement with Automatic and Fully-Regulated Insulin Release in Type 1 Diabetes

Harvard Medical School

stoleru@hms.harvard.edu

Ekaterina Toropova, Ph.D.

(2012 Fellow)

Structural Basis for the Regulation of the Molecular Motor Dynein by Lis1

Harvard University

toropova@fas.harvard.edu

Tim Van Opijnen, Ph.D.

(2010 Fellow)

Functional Organization of the Streptococcus Pneumoniae Two Component System Regulatory Network

Tufts University School of Medicine

tim.vanopijnen@bc.edu

Helen J. Wing, M.D., Ph.D.

(2002 Fellow)

Regulation of the Shigella Virulence Factor IcsP

University of Las Vegas, Nevada

helen.wing@unlv.edu

Phillip D. Zamore, Ph.D.

(1997 Fellow)

RNA-Protein Interactions in Translational Regulation in the Drosophila Embryo

University of Massachusetts Medical School

Phillip.Zamore@umassmed.edu
